The Open Future of Private Aviation

Private aviation was once an opaque world that lacked transparency and flexibility. If you weren't on the "inside," you felt excluded. **XO** has changed all that. Our entire business model is tech-forward, creating access, flexibility and visibility - a refreshing approach we call the open future of private aviation.

Everything we offer, from our unique crowdfunding model to our ever-expanding Dedicated Fleet, is in service of this dramatic change in a legacy category. We have attracted an unprecedented level of interest from digital entrepreneurs, small business owners, creators in art, music, and design – who had never considered private aviation because they didn't believe it was “for them.” We invite you to read

our most recent blog, which captures the full expression of our exciting mission.

Trusted worldwide, XO revolutionizes access to private aviation through our unique membership programs, operational excellence, and cutting-edge technology. Everything we do – such as offering transparent pricing on the XO mobile app unparalleled level of service, and fully refundable membership deposits; sets us apart while providing you with an elevated private aviation experience. The XO Experience.

Warmly,

Alex Hardy
